

Greater Norwich Call for Sites Submission Form

FOR OFFICIAL USE ONLY	
Response Number:	GNLP0025
Date Received:	

This form is to be filled out by any interested parties who want to promote a site for a specific use or development to be allocated in the Greater Norwich Local Plan.

Only one form should be submitted for each individual site i.e. it is not necessary for a separate form to be completed for each landowner on a single site in multiple ownerships. However, a separate form must be completed for each individual site submitted.

Your completed form should be returned to the Greater Norwich Local Plan team no later than **5pm on Friday 24 June 2016**.

By email: callforsites@gnlp.org.uk

Or, if it is not possible submit the form electronically,

By Post to:

*Greater Norwich Local Plan Team
PO Box 3466
Norwich

Site Features and Constraints

Are there any features of the site or limitations that may constrain development on this site (please give details)?

7a. Site Access: Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

None at present but with the recent successful application to build 13 dwellings on land immediately abutting the proposed site this should not be an issue. as improved

access to the approved site are part of the conditions for approval.
No public rights of way cross or adjoin the site.

7b. Topography: Are there any slopes or significant changes of in levels that could affect the development of the site?

Land is level and there are no physical constraints to development.

7c. Ground Conditions: Are ground conditions on the site stable? Are there potential ground contamination issues?

ground conditions are stable and there are no contamination issues.....as previously stated the land is currently used as part of a large garden

7d. Flood Risk: Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?

No flood risk.

7e. Legal Issues: Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?

No legal issues....we are owners of the land ...there are no restrictive covenants or existing tenancies

7f. Environmental Issues: Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?

Unsure whether no 45 High Green is listed but in any event the proposed dwelling would be situated approx 30 yards from the back of that property.
As mentioned the village is deemed to be a conservation area but no material considerations affecting the proposed site.

7g. Heritage Issues: Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?

Unsure whether no 45 High Green is listed but in any event the proposed dwelling would be situated approx 30 yards from the back of that property.
As mentioned the village is deemed to be a conservation area but no material considerations affecting the proposed site.

7h. Neighbouring Uses: What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?

All neighbouring issues are residential and so no implications

7i. Existing uses and Buildings: are there any existing buildings or uses that need to be relocated before the site can be developed.	
No buildings currently on the proposed site.	
7j. Other: (please specify):	
None	

Utilities	
8a. Which of the following are likely to be readily available to service the site and enable its development? Please provide details where possible.	
Mains water supply	Yes
Mains sewerage	Yes
Electricity supply	Yes
Gas supply	No
Public highway	Yes
Broadband internet	Yes
Other (please specify):	NULL
8b. Please provide any further information on the utilities available on the site:	
None of the above services are currently on site as it is part of a residential garden. However the adjacent site now has planning permission for 13 dwellings and as a consequence the single plot development could 'piggy back' on the new development as the site is very very close.	

Availability	
9a. Please indicate when the site could be made available for the land use or development proposed.	
1 to 5 years (by April 2021)	

9b. Please give reasons for the answer given above.

We would develop the site which we own outright ourselves and would be in position to do so from 2017 onwards.

Market Interest

10. Please indicate what level of market interest there is/has been in the site. Please include relevant dates in the comments section.

Site is owned by a
developer/promoter

Comments	site part of our garden bought in 2010
-----------------	----------------------------------------

Delivery

11a. Please indicate when you anticipate the proposed development could be begun.

1 to 5 years (by April 2021)

11b. Once started, how many years do you think it would take to complete the proposed development (if known)?

approx 1 year to complete the build of a single dwelling

Viability

12a. You acknowledge that there are likely to be policy requirements and Community Infrastructure Levy (CIL) costs to be met which will be in addition to the other development costs of the site (depending on the type and scale of land use proposed). These requirements are likely to include but are not limited to: Affordable Housing; Sports Pitches & Children's Play Space and Community Infrastructure Levy

Yes

12b. Do you know if there are there any abnormal costs that could affect the viability of the site e.g. infrastructure, demolition or ground conditions?

No

12c. If there are abnormal costs associated with the site please provide details:

NULL

12d. Do you consider that the site is currently viable for its proposed use taking into account any and all current planning policy and CIL considerations and other abnormal development costs associated with the site?

Yes

12e. Please attach any viability assessment or development appraisal you have undertaken for the site, or any other evidence you consider helps demonstrate the viability of the site.

Although part of the site currently sits outside of the present development boundary this is totally illogical as the recently approved 13 dwelling site extended the development boundary creating an anomaly with the development boundary running through our land.....in effect creating a small neck of land outside the boundary.
