No

Planning applications have been previously submitted (and refused) Broadland Council references: 20021336 & 20041531. The main reasons for refusal was the site's location outside of the defined settlement limits for the village. There are no insurmountable technical reasons for refusal. The landowner has previously sought the site's inclusion within the Marsham development boundary.

**Site Features and Constraints**

Are there any features of the site or limitations that may constrain development on this site (please give details)?

**7a. Site Access:** Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

Access will be from Fengate.

<b>7b. Topography:</b> Are there any slopes or significant changes of in levels that could affect the development of the site?
There are no insurmountable topographical issues affecting the site.

The ground conditions are stable. Any contamination from previous agricultural uses will be removed/mitigated prior to development.
<b>7d. Flood Risk:</b> Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?
The site is within flood zone 1 and not in an identified high risk flood zone. A flood risk report will be submitted in due course.

<b>7g. Heritage Issues:</b> Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?
There are no heritage features/designations affected by the proposal.
<b>7h. Neighbouring Uses:</b> What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?
There are commercial uses to the north and residential uses to the south of the site. Other boundaries are open farmland.
