#### **Other Relevant Information**

**13. Please use the space below to for additional information or further explanations on any of the topics covered in this form**

This site is a long established commercial site on the edge of Beckhithe, between Little Melton and Hethersett.

It is situated to the west side of Little Melton Road approx. 400m west of the junction with Burnt House Lane and on the south west boundary of Little Melton, itself situated on the south west side of Norwich approximately 4 miles from the city centre within about 2 miles of the junction of the A47 and the A11.

The re-development of the site would be classed as reuse of previously-developed (brown field) land. It is in a sustainable location close to Little Melton which is proposed to accommodate further housing as identified in the proposed Site Specific Allocations DPD. *Thus the site's redevelopment should take place in preference over greenfield land which are in less sustainable locations.* This core planning principle is set out in National Planning Policy (NPPF) paragraphs 17 & 111.

We are not aware of any particular site constraints, or legal issues that would otherwise prevent development of this site within the plan period. The site satisfies the requirements of NPPF paragraph 47, bullet 3 in that it will be developable, as defined i.e. 'sites should be in a suitable location for housing development and there should be a reasonable prospect that the site is available and could be viably developed at the point envisaged'. This is envisaged it could be developed within the proposed plan period from around 2021-26.
