DWELLING APPEARANCE

The surrounding built environment is traditional building of linear settlement characterised by one plot depth development with a wide variety of sizes, styles and materials typical of a village settlement.

The scheme proposes to adopt the style of traditional dwellings but with the benefits and knowledge of modern technologies.

The buildings will be orientated to face the existing carriage way ie The Street being appropriate for the setting.

LANDSCAPING

The landscaping works associated with the development will ensure that the landscaping complements the development ie native hedging and trees.

There will be planting of additional trees and shrubs located strategically around the development.
