# POTENTIAL DEVELOPMENT AT LAND NORTH OF THE STREET, SHOTESHAM, NORWICH, NORFOLK

## AERIAL VIEW

PROPOSED SITE

### DRAWING KEY

Red is the site.

### THE SITE AND AREA

The site is currently an agricultural field and is relatively level.

There is presently a hedge running parallel with the Street fronting the Site.

The site boundary to the South East of the site is defined by Valley Farm.

The site boundary to the North West of the site is defined by the bowling green.

Shotesham has been identified as an 'Other Village' in the Joint Core Strategy.

There are a small range of facilities including village hall, public house and bus service.

Development within the parish has been concentrated along the Street to form an established village which has developed a linear settlement with one plot depth.

The whole village is set within an attractive valley with an abundance of trees and hedges that separate many of the buildings and maintain the rural character of the village. The main built-up area together with part of Shotesham Common is a Conservation Area together with the landscape to the west associated with Shotesham Hall.

### DWELLING APPEARANCE

The scheme proposes to adopt the style of traditional dwellings but with the benefits and knowledge of modern technologies.

Architectural features found locally will be utilised on the development to allow it to integrate easily within the village.

### LANDSCAPING

The landscaping works associated with the development will ensure that the landscaping complements the development.

It is proposed to replant / retain if at all possible the native hedge fronting The Street, depending on required visibility splays.

There will be a native hedge planted on the North East Boundary to minimise the impact of the development on the open landscape.
