PROPOSED SITE

DRAWING KEY

Red is the site.

THE SITE AND AREA

The site is currently agricultural land set behind residential dwellings fronting Church Lane and is relatively level.

The site boundary to the North of the site is defined by the residential dwellings boundaries with a mixture of fencing and hedging.

The site boundary to the East of the site is defined by Woodview Farm, partial hedging with the remainder being open agricultural land.

There is no existing site boundary to the South of the site.

The site boundary to the West of the site is hedging.

Wicklewood is defined as a Service Village under policy 15 of the Joint Core Strategy with the main concentration of development taking place along Wymondham Road, High Street, Hackford Road, Church Lane and Low Street with clusters of development taking place in Milestone Lane and The Green. Individual farmsteads and dwellings are sparsely distributed throughout the rest of the parish.

There are two small estate type developments at All Saints Close and Hillside Crescent with further development land allocated at Hackford Road and the High Street.

There are good road links to Wymondham and Hingham via the B1135 and B1108 respectively. There are regular bus services to Wymondham and Norwich.

DWELLING APPEARANCE

The scheme proposes to adopt the style of traditional dwellings but with the benefits and knowledge of modern technologies.

LANDSCAPING

The Landscaping works associated with the development will ensure that the landscaping complements the development ie retention of any native hedging together with a shelter belt to the East and South of the site to minimise the impact of development on the open landscape. Additional planting is also proposed to the North of the site to screen the site from the existing residents of Church Lane.
