4c. Describe any previous uses of the site. (please provide details of any relevant historic planning applications, including application numbers if known)

Proposed Future Uses

5a. Please provide a short description of the development or land use you proposed (if you are proposing a site to be designated as local green space please go directly to question 6)

Residential development comprising mixture of market housing, affordable and landscaping. Suggested number of dwellings 5 - 8 but dependent upon advice from developer/planners.

5b. Which of the following use or uses are you proposing?

Market Housing	<input checked="" type="checkbox"/>	Business & offices	<input type="checkbox"/>	Recreation & Leisure	<input type="checkbox"/>
Affordable Housing	<input checked="" type="checkbox"/>	General industrial	<input type="checkbox"/>	Community Use	<input type="checkbox"/>
Residential Care Home	<input checked="" type="checkbox"/>	Storage & distribution	<input type="checkbox"/>	Public Open Space	<input type="checkbox"/>
Gypsy & Traveller Pitches	<input type="checkbox"/>	Tourism	<input type="checkbox"/>	Other (Please Specify)	

5c. Please provide further details of your proposal, including details on number of houses and proposed floorspace of commercial buildings etc.

A small development of mixed use well designed dwellings would considerably enhance and make a positive contribution to this corner of the village. The number of dwellings possibly 5 - 8 dependent on the advice of developers/planners. There are already two established vehicular accesses one to Pits Lane and one to Hardley Road.

5d. Please describe any benefits to the Local Area that the development of the site could provide.

The Victorian cottages opposite the site do not have car parking spaces. With two cars per property there are often 4 or 5 vehicles parked on the small triangular green outside the cottages giving an untidy impression of the area and creating a muddy patch during the winter months. The site could incorporate a small number of car parking spaces to accommodate these vehicles.

Local Green Space
If you are proposed a site to be designated as Local Green Space please complete the following questions. These questions do not need to be completed if you are not proposing a site as Local Green Space. Please consult the guidance notes for an explanation of Local Green Space Designations.
6a. Which community would the site serve and how would the designation of the site benefit that community.
6b. Please describe why you consider the site to be of particular local significance e.g. recreational value, tranquillity or richness in wildlife.

Site Features and Constraints
Are there any features of the site or limitations that may constrain development on this site (please give details)?
7a. Site Access: Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?
There are two established vehicular accesses which would probably need some improvement (one from Pits Lane the other from Hardley Road). The hedges are laurel and not protected. There are no public rights of way over the site.
7b. Topography: Are there any slopes or significant changes of in levels that could affect the development of the site?
The site is on two levels but developers have stated this would not affect development and could in fact enhance the individuality of any development.
7c. Ground Conditions: Are ground conditions on the site stable? Are there potential ground contamination issues?
Am not aware of any instability or contamination of the site.
7d. Flood Risk: Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?
The site is not in a flood zone and there are no flooding issues.
7e. Legal Issues: Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?
N/A

<p>7f. Environmental Issues: Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?</p>
<p>The site is not next a watercourse or mature woodland and there are no significant trees. The border hedgerows are mainly laurel and not protected.</p>
<p>7g. Heritage Issues: Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?</p>
<p>There are no listed buildings on the site. A small area of the land is in the Conservation area. This area of the land could be landscaped and having discussed the site with English Heritage any development</p>
<p>7h. Neighbouring Uses: What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?</p>
<p>The site is surrounded by existing development and dwellings on all boundaries (a former small business on the east boundary) and would not impact upon neighbouring uses.</p>
<p>7i. Existing uses and Buildings: are there any existing buildings or uses that need to be relocated before the site can be developed.</p>
<p>The existing buildings are former hen houses.</p>
<p>7j. Other: (please specify):</p>
