FARMLAND FORESTRY –

DRAFT TREE REPORT ON LAND AT TOFT MONKS

25th September 2012

1. Terms of Reference

- 1.1 The aim of this assessment is to survey the trees covered by TPO A1 to establish their merit in terms of a TPO and the restrictions that they may put on any proposed development..
- 1.2 A plan of the site showing the area of the trees was provided at a scale of 1:1250.

2. Tree Survey Details

- 2.1 The trees in question were surveyed on the 24th September 2012, and were assessed by a visual ground inspection.
- 2.2 The belt of trees, TPO – A1, adjacent to the plot of land 1134 comprise mainly of mature Oak with an understory of Hawthorn, Hazel and Sycamore, Most of the Oak are in a generally healthy state with some die back, normal for trees of this size and age. Their average trunk diameters are 500mm. They are flanked by a mature Hawthorn hedge in good health and form. The belt as a whole forms a significant feature and screen to the existing properties along Bulls Green Lane.

3 Arboricultural Constraints

- 3.1 Although there are no specific outstanding individual trees the belt as whole is a significant feature in the landscape while also forming a good ecological feature. As such the group of trees would be classed as at least category B 2 & 3 on the British Standard 5837:12 cascade and therefore justifiably TPO'd.
- 3.2 In terms of any constraints this belt may impose on any proposals to plot 1134 their below ground constraint will be a Root Protection Area of 6 metres into the plot and running parallel to the belt. Their above ground constraints are minimal being to the north of the plot and with few drastically overhanging boughs.

4 Conclusion

- 4.1 The TPO'd belt of trees has merit and is unlikely to be drastically altered, however the constraints they impose on any proposed development are fairly minimal.
- 4.2 It is prudent to mention that this report is not a tree report as acceptable to BS 5837:12 and consequently were firm development proposals made a full Tree Report, covering all trees on site and adjoining land will be required.
