Green links created could connect the existing Drayton Woods to Canhams Hill and the wider pedestrian network linking to Hellesdon, Horsford and Drayton.

**Local Green Space**

If you are proposed a site to be designated as Local Green Space please complete the following questions. These questions do not need to be completed if you are not proposing a site as Local Green Space. Please consult the guidance notes for an explanation of Local Green Space Designations.

Not applicable.

**6b. Please describe why you consider the site to be of particular local significance e.g. recreational value, tranquillity or richness in wildlife.**

**Site Features and Constraints**

Are there any features of the site or limitations that may constrain development on this site (please give details)?

**7a. Site Access:** Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

There are no public vehicular access points at the site. Initial access assessment has identified a viable access strategy. This is set out within the attached Position Statement.

**7b. Topography:** Are there any slopes or significant changes of in levels that could affect the development of the site?

The site is relatively flat with no significant changes in ground level.

**7c. Ground Conditions:** Are ground conditions on the site stable? Are there potential ground contamination issues?

The site has been in arable production for many years. There is no record of contamination or ground instability.

**7d. Flood Risk:** Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?

Initial assessments in the immediate area have confirmed that risks of flooding are likely to be minimal and with satisfactory mitigation. This is set out within the attached Position Statement.

**7e. Legal Issues:** Is there land in third party ownership, or access rights, which must be acquired to develop the site, do any restrictive covenants exist, are there any existing tenancies?

No legal issues exist which would prevent development. Any development would respect existing permissive footpaths on the boundaries of the site.

**7f. Environmental Issues:** Is the site located next to a watercourse or mature woodland, are there any significant trees or hedgerows crossing or bordering the site are there any known features of ecological or geological importance on or adjacent to the site?

No significant issues are expected, please refer to the attached Position Statement for further details.

**7g. Heritage Issues:** Are there any listed buildings, Conservation Areas, Historic Parklands or Schedules Monuments on the site or nearby? If so, how might the site's development affect them?

None identified.

**7h. Neighbouring Uses:** What are the neighbouring uses and will either the proposed use or neighbouring uses have any implications?

The site located to the west of Reepham Road abuts Drayton Woods CWS and other areas of ecological interests. This presents an opportunity to protect and enhance these areas, providing additional GI access routes.

**7i. Existing uses and Buildings:** are there any existing buildings or uses that need to be relocated before the site can be developed.

Please refer to the attached Position Statement for further details.

**7j. Other:** (please specify):

The attached Position Statement provides a detailed narrative of the intended masterplan.
