Site Features and Constraints

Are there any features of the site or limitations that may constrain development on this site (please give details)?

7a. Site Access: Is there a current means of access to the site from the public highway, does this access need to be improved before development can take place and are there any public rights of way that cross or adjoin the site?

The West boundary is completely accessible from the Highway with no need for improvement.

7b. Topography: Are there any slopes or significant changes of in levels that could affect the development of the site?

No - very slight gradient

7c. Ground Conditions: Are ground conditions on the site stable? Are there potential ground contamination issues?

No and the ground conditions are stable.

7d. Flood Risk: Is the site liable to river, ground water or surface water flooding and if so what is the nature, source and frequency of the flooding?

The ground does not flood as any surface water flows into the river. There is a house on the opposite side of the road that is built on the river bank.
